

MaRC**Te**X Inc.

Manufacturers' Representative for the Electronics Industry Covering: TX, OK, AR, LA

Represented Equipment and Supplies

3D SPI, 3D AOI, 3D AXI
Easy programming and defect review
AI driven software for the fastest and easiest programming in the

Stencil Printers: SMT, Semiconductor, Solar and other applications
Depaneling systems: mechanical / laser Stand-alone and fully inline automated systems
Laser Marking: CO2, Fiber Laser, Green Laser- FULL TRACEABILITY
Handling: Simple conveyors to full factory automation
Storage Systems: Dry Towers to FULL Material Warehouses

Austin American offers a variety of inline cleaning solutions for water soluble fluxes and/or rosin and no-clean fluxes using industry leading chemistries from Kyzen and Zestron. Both Modular and Uni-body models are available to choose from.

X-ray Counters with advanced AI technology for automatic part recognition.
X-ray Systems for cost effective inspection
Rework Systems- Largest installed base in the world

X-ray Counters with advanced AI technology for automatic part recognition.
X-ray Systems for cost effective inspection
Rework Systems- Largest installed base in the world

Vapor-Phase Reflow
Condensio series can solder even the most difficult assemblies quickly and dependably, at temperatures up to 240 Deg C.
Optional vacuum module ensures void-free joints-directly after the soldering process or as a pre-vacuum.

Flying Probe and ICT Testers
Spea is the world leader in Flying Probe and ICT tester technology.
Multiple platforms to choose from. USA Headquarters located in Tyler,

Made in America

TM Soldering Solutions
From the makers of the original ACE Selective Systems
MADE IN USA
Selective Soldering Systems
Manual and Inline, Windows 11, Dual Monitors, Fiducial recognition,
Offline Programming, Auto wave height adjustment, Lead or Lead Free,
Automated solder level detection and fill

Board Shark

Great Service. No Bite.
www.boardsharkpcb.com

PCB Fabrication

One-Stop-Shop for your Bare Board needs

1-7 day quick-turn, 3-4 week standard

Rigid, Flex, Rigid-Flex, Aluminum

Partnered factories in: USA, Taiwan, China

Quote requests: mike@boardsharkpcb.com

IN COOPERATION WITH: Design Forward www.dsgnforward.com

Distribution Products through MaRC Technologies

Bar Solder, Solid Wire Solder - Typically 20%-40% savings

Factory Direct Pricing

Sn63/37, SAC305, NT100Ge (SN100C Drop-in), SAC307, other

BENCH PRO
...ROCK SOLID

BenchPro™ produces and distributes the finest workbenches available today. They stock nothing, yet produce workbenches and chairs in hundreds of colors and sizes in three to five days.

Soldering and Desoldering system. The most powerful systems on the market today for both simple and complex hand soldering applications and rework.

Curie Heat Technology which responds to the thermal demands of each solder joint by adjusting the power instantaneously, thereby meeting the exact requirements of the substrate component and solder material. (Crosses to Metcal STTC, STDC tips)

Vision
ENGINEERING

World Leaders in ergonomic microscopy, digital 3D visualization and metrology solutions
Digital 3D inspection systems and metrology systems enable our customers globally to improve quality, efficiency and productivity.

Closed-Loop Water washers for PCBA's, Stencils, Pallets, and more. **Partnered with Kyzen and Zestron for Chemistry**
PBT Works offers cleaners unmatched in the Electronics Manufacturing Industry for "Direct-Spray-in-Air" batch washers.
